# Highlights

## Dimming creates atmosphere

Multiple lights in a room let the room appear more vivid as this emphasizes different corners and sides. By dimming these lights, you can create atmospheres from cosy to vibrant.

## Soft light gentle to eyes

Fully and even illuminated, these light bulbs give a diffused light effect without any dazzle or glare.

## Looks like a standard lamp

Identical shape and size, looking just like your standard bulb and has the perfect fit.

## Saves up 78% lasts 10 years

Save up to 78% energy compared to your standard bulb. It pays for itself and lasts 10 times as long. So reduce your energy bill and start saving Now, year after year.

\* Breaking a lamp is extremely unlikely to have any impact on your health. If a lamp brakes, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a closed plastic bag and offer it to the local waste facilities for recycling. Do not use a vacuum cleaner.

\*\* Compact fluorescent lamps have to be treated as special waste, they must be offered to the local waste facilities for recycling. The European Lighting Industry has set up an infrastructure, capable of recycling mercury, other metals, glass, etc.
